

Docket No. AUS920030875US1

ABSTRACT OF THE DISCLOSURE

**METHOD, SYSTEM, AND PRODUCT FOR INDICATING POWER STATUS
OF FIELD REPLACEABLE UNITS**

A method, system, and product are disclosed for indicating a power status of multiple devices using hierarchically encoded indicators. Multiple nodes are included within a data processing system. Each node includes a different implementation of the devices. Each one of a first level of power indicators are associated with a different one of the nodes. Each one of a second level of power indicators is associated with a different one of the devices. A power status of each node is indicated utilizing one of the first level of power indicators. A power status of each device is indicated utilizing the second level of power indicators.
